Hello!

When it gets down to 45 below there is some excuse for talking about the weather but there isn't much novelty in it. You see there are about 7,000,000 people in the Dominion of Canada who are bursting with observations on the same subject. So when you get tramping along the sidewalk rubbing your ear to get the frost off it and meet a friend who is tenderly feeling the place where his nose ought to be and you cheerfully remark that is a cold day, you are not telling anything he does not already know and when he replies that "it sure is" he only confirms suspicions that you have entertained for a long time on the subject. Well, it is an ingrained habit of mankind to talk about the weather, to say it is cold, or it is hot, or it is windy or it is fine, and do it will to the end of the chapter.

Just one thing please. Don't whine about it. We have heard this week full-grown men, who use a razor, and have lived in Alberta long enough to know better, go bleating about town like a lost calf, telling everyone who would listen to them how badly they felt and how cold they were and wondering when it would be warmer and making us fairly ache to inject a little heat into their corporation by means of the vigorous application of a boost toe. These fellows ought to be rolled in a snow drift and fed on fried icicles until they learned to appreciate their blessings, no cheerful, all it is not miserable. The bright orb of day still shines in Sunny Alberta. Under the drifted snow blanket on the fields the fall wheat is snugly tucked away in its bed, awaiting the call of the spring chinook. The cattle are contented and if the chickens have frozen combs they know that the good old summer time will be here anon.

Cheer up, everybody! When you have worked the morning "Ain't it cold?" out of your system one, don't say it again till next day. Talk about something else, politics, the crops, the town council or any one of 50 other things.

It is a cracking good idea to hire a competent man to run all the public works, to make him responsible and to pay him properly. The proof of this particular pudding is to get a good man. The thing is a long step in the direction of commission government for Macleod and \$1800 a year will be saved many times over.

While we are talking about town officials' salaries doesn't it strike somebody that the Secretary-Treasurer, who handles all the town funds and is responsible for the cash, should receive at least as much as the man who is to guard the pickaxes and direct the road roller?

TABER 6 MACLEOD 4

Taber 6, Macleod 4. That is the sad story. If Macleod had shown the same fighting spirit in the first half that they did in the second the tale would probably have been different. But they didn't and the Cocks walked away with the pudding.

Say, it was a case where too many Cocks spoiled Macleod's broth. "L.T." at Macleod was a bout the fastest big fellow seen on the rink here. "G.C." at goal was a bird as far as that goes. How they did all cover up when their goal was in danger!

Some of the Macleod seven played a game that was decidedly off color. It wasn't "Spud Murphy's" day. Throwing the puck doesn't class with throwing a baseball and when you want to hand the referee a poke do it after the game. Other wise you get ruled off for 15 minutes and then it costs your team the match. Mr. Nichol's decision in this case was exactly right.

Just here let us say that some of the referee's ideas of off-side play were weird and it would puzzle a Philadelphia lawyer to tell why he always dropped the puck where it stopped after an off-side and not at the point it started from. He was altogether too stringent in penalizing for body checking and Macleod suffered out of all proportion to the offences committed. Gardiner, Scougall and Cunningham were "right in it" all the time. Proud is a fine word.

A DELIGHTFUL TEA

A pleasing contrast to the bitter cold without was presented by the color, light and warmth of Mrs. J. W. McDonald's pleasant home at her tea given on Thursday. No one seemed to have been kept at home by the low temperature and the rooms were filled by cheerful groups of women enjoying a chat with friends and partaking of dainties served from the pretty appointed tea table.

The center piece of lilies and asparagus fern rested on a tulip foundation and candles with pierced brass shades over white were placed at the corners of the table. Mrs. McDonald received in a beautifully fitting gown of mauve crepe de chene with self-toned decorations of embroidery and net. Mrs. Skelton and Mrs. Gray poured coffee and tea. Mrs. Matthews cut the ice cream and Mrs. Hutcheon and Mrs. Lindsay assisted in looking after the needs of the guests. Little Misses Phyllis, Frances and Margaret McNeill served as pages.

GIRL WANTED

Girl Wanted. Apply to Mrs. T. Wilton, Macleod, Jan. 14/12.

LATEST!

Macleod, January 14th.—The Chinook has come and Jack Frost is beaten.

Everybody is happy and the goose hangs high. Temperature 20 ABOVE zero.

RECIPE FOR COMMITTEE STEW

Take six members of the Town Council and one Mayor (fresh). To these add two lists of Standing Committees and scrap well together for two hours. Season with choice bits of language, some good reason (old English style of pronunciation) and plenty of pep. Simmer down in committee of the Whole and serve cold about 11 P.M. like this:

Works and Property—Bryan, Day, Skelting.

Finance—Cunningham, Bryan, Day.

Water and Light—Day, Swinarton, Bryan.

Police and License—Skelting, McNay, Cunningham.

Health and Relief Swinarton, Cunningham, McNay.

Fire—McNay, Skelting, Swinarton.

Auditor R. E. Mercer, who audited the Public school accounts, complimented the Secretary-Treasurer's staff on the neat way in which they were kept.

W. Rudolph, who was chosen Councillor by acclamation at the meeting of Division 2 (McBride Lake) L. E. D. 4-1-1 held Jan. 13rd at the home of B. L. Olson. Some of the ratepayers have said that they might protest the election on the ground that the returning officer had put the wrong date on the notices. If they do it will be a matter for the department to decide. Meanwhile Mr. Hodgner holds the fort.

THE CANADIAN NAVY

SIR CHARLES TUPPER WOULD BUILD FAST CRUISERS

Ex-Prime Minister Has a Project that Would Assist the Empire in Time of War, and Help to Develop Trade in Canada in the Time of Peace.
It was Ten Years Ago that Sir Charles Tupper would build fast steamers.

Montreal—In a recent interview, Sir Charles Tupper, who has just returned from the Old Country, recited the views expressed by his father, Sir Charles Tupper, with regard to the construction of the Canadian navy.

The ex-prime minister is of the opinion that the government and parliament of Canada have made a great mistake in the manner they have chosen to assist the mother country. Sir Charles declares that his project was one which would assist the empire in the time of war, and in no small measure help to develop the trade of Canada in the time of peace.

The veteran statesman said if he were ten years younger he would help to construct the most rapid cruisers about of the cruiser type, and thus constitute a serious menace to Great Britain that would leave New York and the United States in the rear, and if hostilities were to break out these cruisers would be of great service in keeping open our grain route across the Atlantic.

GREAT NAVAL DISPLAY IN 1915

Giugic Avarage of The Navies of the World in The United States

Washington—Washington will be the scene of one of the greatest naval spectacles ever witnessed in the world with the Pan-American canal exposition in 1915. It is proposed to have an amendment to the exposition bill to be offered by the president and Senator of Virginia are carried out. The amendment would require that the navy of the world on record to the exposition shall be asked to assemble fleet at Hampton Roads.

There they will be reviewed by the president, the secretary of the navy, and the naval authorities of the world. Then Hampton Roads will be the base from which a detachment will be sent to Washington, to participate in a display of naval maneuvers.

It is believed that the occasion will be the getting together of such an aggregation of the world's navies as has never before been seen. Assembled after the various functions, naval and social, have been completed of the world will depart in a grand parade of monster fighting machines. They will make their way through the water, each demonstrating its possible capacity for handling any emergency.

LAUDS JOSEPH CHAMBERLAIN

Has Done More to Consolidate Overseas Dominion than Any Other Man

London—A striking tribute to Chamberlain as a statesman, and the fact that he has been paid by Lord Strathairn at Birmingham recently, is that he has done more to consolidate the British empire than any other man in the world.

Representing Canada in England, he has done more to consolidate the British empire than any other man in the world. He has done more to consolidate the British empire than any other man in the world.

GRAIN HANDLING FACILITIES

The Government Will Have Effective Method to Prevent Mixing Operations

Ottawa—It is understood that part of the Canadian government's plans for the creation of a grain route from the Western prairie to the British market by way of Hudson's Bay, includes grain handling facilities at Liverpool.

Complaint has been made by the Canadian grain growers that they have been deprived of proper profits by the mixing operation. The government has decided to go to extreme lengths to correct the evil.

FAMINE IN CHINA

Thousands Are Reported Drowned Following an Unprecedented Heavy Rain

Shanghai—Recent reports confirm the earlier advice of suffering from famine in the districts of the north and the southern part of the province of Anhui, north and south of the Yangtze River, about 700,000 square miles in extent and containing a population of approximately 100 million people. The famine is caused by the destruction of crops through floods. Thousands of people are reported to have died following an unprecedented heavy rainfall.

WHEN CANADA BECOMES CENTRE

Veteran Advocate of Imperial Unity Looks Forward to the Time When Canada Will be Centre of Empire

London—Sir F. Young, a veteran advocate of imperial unity, tells The Morning Post that he believes that Canada will be the centre of the empire in the future. He believes that Canada will be the centre of the empire in the future.

VALUABLE DISCOVERY

Multiplex Telephony is Practicable According to Recent Experiments

Washington, D.C.—General Allen, chief signal officer of the army, has announced that as a result of his experiments by the signal corps, multiplex telephony, whereby several independent conversations may be carried on the same wire, is now practicable.

His discovery calculated to double the capacity of existing telephone lines, is that it is not necessary to use two wires, or what is known as the duplex system, but that a single wire with "silent current" can be used.

His discovery calculated to double the capacity of existing telephone lines, is that it is not necessary to use two wires, or what is known as the duplex system, but that a single wire with "silent current" can be used.

RUSSIA AND GERMANY AGREE

Germany Disclaims And Political Interests in Northern Persia

London—An evening paper publishes what purports to be an agreement between Russia and Germany on Persia. It is supposed to be the result of the meeting between the two emperors at Potsdam, last November.

Germany disclaims any political interest in Persia, and recognizes Russia's interest in the region. It is supposed to be the result of the meeting between the two emperors at Potsdam, last November.

TREATY FAVORED IN BRITAIN

The Times Says Tait's Suggestion Will be Welcomed By His Country

London, England—In an editorial review of the arbitration treaty proposed by Tait's suggestion, the Times says that it is likely to be welcomed by his country.

EQUAL RIGHTS TO PROTESTANTS

Ulster 44 Per Cent Catholic and 56 Per Cent Protestant

London—John E. Reimold, editor of the Catholic Standard, has written a paper to an elevator to remove the Catholic objection to the proposed Equal Rights to Protestants.

DEFIES THE COURT

Objected to Judge Hearing His Case—Refuses to Pay the Judgment Against Him

Wolland, Ontario—B. T. Tanner, a wealthy fruit farmer, created a sensation in the division court by objecting to the judge who was hearing his case. He refused to pay the judgment against him for contempt of court.

NEW BIRTH RATE START ON FEB. 1

Montreal—According to present statistics, the birth rate in the city of Montreal is expected to start on Feb. 1.

UPPER RAPIDS ABOVE THE FALLS

Upper Rapids Above the Falls Promises to be a Great Source of Power

London—Sir F. Young, a veteran advocate of imperial unity, tells The Morning Post that he believes that Canada will be the centre of the empire in the future. He believes that Canada will be the centre of the empire in the future.

ARE FIXING THE TARIFF

FAVORABLE COMMENCEMENT OF NEGOTIATIONS

Representatives of Canada and the United States are now conferring on the reciprocity question. The Canadian proposal is to give the farmer and the manufacturer.

Winning—An agreement from Washington in the spring of some sort will be the outcome of the reciprocity negotiations which were formally opened on the 10th inst. by the department recently.

The Canadian proposal considers the farmer a good deal, and the manufacturer not at all. The main point to be settled is the tariff on the products of Canada.

The proposed reciprocity arrangement is to be a reciprocal arrangement. It will increase it at both ends, and it will be a reciprocal arrangement.

PLOT TO DEFRAUD GOVERNMENT

Rather Convincing Evidence Brought Out at Inquiry at Vancouver

Vancouver—At the Chinese investigation at the Chinese consulate in Vancouver, David C. Low, a young Chinese agent, was found to be plotting to defraud the government.

David C. Low, a young Chinese agent, was found to be plotting to defraud the government. He was found to be plotting to defraud the government.

Terribly Disappointed

"Of course, doctor, German measles are seldom serious," I never met but one fatal case. "That's right."

"Yes," it was a Frenchman, and when he discovered that German measles that he had, mortification set in.—London Tri-Bits.

Cheese will be kept moist and free from mould if wrapped in cloth, turning out in vinegar.

FOUND QUICK CURE AFTER EIGHT YEARS

DODD'S KIDNEY PILLS TRIUMPH WHERE BELLS AND PLAS-TERS FAIL

Moses Sherwood, a long sufferer from Backache, found permanent relief in one box of the Great Canadian Kidney Remedy, Dodd's Kidney Pills.

Proddage, King's, C. N. B. (Specimen)—After suffering for eight years, while all the time the remedy was right at hand, Mr. Moses Sherwood, well-known farmer living near here, tried Dodd's Kidney Pills and is now as well as ever he was in his life.

"Mr. Sherwood's experience is similar to that of thousands of other natives of New Brunswick. 'About eight years ago I had a severe attack of backache, and it was so bad that I was unable to lift,' he states. 'I used liniments and plasters and were a waste, but in two years my trouble had developed into kidney disease. 'My back was so bad that I could not lift any weight, when reading a book I had to stop and rest. 'Dodd's Kidney Pills. Before the first box was finished my backache was gone and I have never been troubled with it since.'"

Charters and plasters may give temporary relief in cases of Backache or Rheumatism, but the only way to cure them is to go to the seat of the trouble. Cure the Kidneys and the Backache or Rheumatism will disappear. Dodd's Kidney Pills never fail to cure the kidneys.

When a boy goes back to the farm he is usually accompanied by a wife and several children.

Minard's Liniment Cures Distemper

Manhate Curie has received from the British ambassador in Paris the Albert Medal of the Royal Society of Arts.

Boiling herbs usually in a solution of a grain of tartar emetic will make an amount of bicarbonate of tin will make a most efficacious poultice.

Shiloh's Cure

There are, in different parts of the world, all kinds of 20c. value.

A good blacking, mixed with white of egg, will restore the color to light shoes and gloves.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warmer hands and pliable muscles. The

PERFECTION OIL HEATER

Absolutely smokeless and odorless

quickly gives heat, and with one filling of the four hours steadily for nine hours, without smoke or smell. Has automatic-looking flame spreader which prevents the heat from being turned off when the burner is out, and so to remove the heat as the work is quickly done.

It has a damper top and a cool handle. Indicator always shows the amount of fuel in the tank, because of a new device. The burner body or gallery cannot be wedged in as in construction, and consequently, it can always be easily unclogged in an instant for reworking. The Perfection is finished in brass or nickel, is strong, durable, well-made, built for service, and is the best of its kind.

Sellers everywhere. If not at 25c. per unit, for description circular in the nearest agency of the

The Imperial Oil Company, Limited.

THE WEREWOLVES.

Fair story of a Sixteenth Century Tragedy.

John of Nuremberg relates how a man, and at night he was a werewolf, directed his steps toward a fire that he saw before him. On reaching it he found a wolf standing on its hind legs and was informed by him that he was really a man as himself, but that he was compelled for a certain number of years, like all his countrymen, to assume the shape of a wolf.

A strange country, indeed, where when the evening grew dark and light a fire and in the comfort of its rudely good are found ready to entertain the passing traveler in their conversation.

Oliver Maunier, in the early part of the sixteenth century tells us a story of a nobleman and his retinue who lost their way in journeying through a wild forest and presently found themselves hopelessly lost and shelterless. In the urgency of the need one of the servants decided to climb in confidence that he had the power to turn himself into a wolf. He did so, and doubted not but that, if his master, he would be able to find the way.

While he would be able to find the way, he would be able to find the way. He did so, and doubted not but that, if his master, he would be able to find the way. He did so, and doubted not but that, if his master, he would be able to find the way.

Shiloh's Cure is a powerful medicine for the cure of all kinds of ailments, including rheumatism, neuralgia, and other painful conditions.

A TURBULENT VOLCANO.

The Boiling Hot Peaks of Taal, in the Philippines.

The central and main crater of Taal is nearly round. Its diameter on an air line is about 1,500 feet. The rim is a low, level, east-west diameter 7,500 feet. The edge of this crater is somewhat irregular, but it is a ring of low hills, the highest point standing at only 1,000 feet above sea level and its lowest at 420 feet.

Within the rim are two hot pools, known respectively as the yellow and the green lake, and a little active cone about fifty feet in height with much green steam and sulphur gases in varying quantities.

In some places the water in the crater is blown up into a immense bubble, which, rising above the surface, finally bursts, revealing a black orifice and causing the boiling and very turbulent water to foam.

At certain times the water in the crater is blown up into a immense bubble, which, rising above the surface, finally bursts, revealing a black orifice and causing the boiling and very turbulent water to foam.

BUZZ!

Pantry Queen Flour, \$2.00
cash at the H. B. Co. Jan 14-25

The Savoy Cafe will put on its usual special Sunday dinner from 6 to 9 p. m.

Hon. Duncan Marshall, Provincial Minister of Agriculture, will be a guest at the Burns Night celebration, certain sure. It is hoped that certain other distinguished guests from the north will be able to accept the invitation to attend. The anniversary of the Scots' hard, on the 24th will be celebrated this year in Macleod as it never was celebrated before.

When watching coal hauling contests keep an eye on Fire Brigade bedding, Messrs. Councilors.

Proprietor "Tal" Rhodes opened the new Depot Restaurant Wednesday evening with a dance and concert which proved to be one of the liveliest and most enjoyable affairs of the winter. The guests were mostly railroad men, their wives, sisters and daughters. There were plenty of partners, the supper was A No. 1 and everybody had the time of their lives. About 100 guests in all attended and the new restaurant, which has arisen so quickly on the ashes of the old, gets a fine and prosperous start.

Back in May the Council told the C. N. R. to go away back and sit down and took away their reservation. Monday night the new Council saw a light and voted the railway company back the land. Best thing to do.

HOSPITAL AID MEETING

The Macleod Women's Hospital Aid held their annual meeting on Wednesday, Jan. 11, with a good number present despite the intense cold. The annual statement was presented and accepted.

A vote of thanks was tendered the retiring President, Mrs. Gardiner, for her services during the past year.

The office of President was left for the next month when it was hoped there would be a more representative meeting. The other officers were elected as follows:

First Vice President, Mrs. Fawcett; Second Vice President, Mrs. Renwick; Third Vice President, Mrs. Liphardt; Secretary, Treasurer, Mrs. Dobner.

ANNUAL STATEMENT

LETHBRIDGE HOTEL IS DESTROYED BY FIRE

The Balmoral Hotel in Lethbridge, owned by W. F. Downey and the Herderson estate, was burned Thursday morning, the fire starting in the boiler room and spreading through the whole building. All the guests but practically nothing was saved.

Several near by blocks were in danger and a number of people moved out their goods but the brigade managed to keep the fire confined to the Hotel.

The firemen suffered severely with the cold. The water froze on their garments and were cased in ice. One of the hydrants was frozen also.

BUZZ!

The 1870 old inhabitants of Macleod who did not attend the firemen's banquet Tuesday were surely unlucky. It was a great feast and the overflow of reason and the pop of soul that followed the nuts and raisins were something long to be remembered. It cannot be described. There are not words enough in the office dictionary to do it justice.

The Mayor and Council made themselves eternally solid with the fire laddies. It wouldn't be fair to put into cold print all that was said after 1 a. m. but here are some of the things which may be expected:

1 \$50,000 fire hall,
1 combination wagon,
100,000,000 feet silk hose,
Single hoses (steel) from Councilor Cunningham's store.

A marriage license for every bachelor on the brigade.

"More pressure" from Councilor Skelding.

Anything in the place, from Councilor McMay.

New cousins all around. Automobiles, annuities and pensions for life for any member of the brigade who asks.

"Fire Brigade Sufferer" was the heading over the article in The Advertiser. This was a case where the two words were not as like as two "ice". The editor tells me in confidence that the type got frozen. The only thing that suffered on that occasion was the bill of fare.

You ought to have seen Mac on his third helping of lobster salad. "Hogis simply is not in it!" he exclaimed.

You didn't know that Fred Perkins could sing and dance like an angel did you? He did, just the same. We don't say what kind of an angel.

Councillor Swinarton dropped in to try neighbor Fairweather's grub pile. He made it look foolish by the time he had finished with it.

Ex-Mayor Fawcett shone as a raconteur.

Jos. Hicks said he kicked Secretary-Treasurer Brown under the tables as a sign that he had better stop. It must have been an extension kick because the two sat at opposite ends of the room and the distance from the ex-councillor's waist-band to his boot tips can be reckoned quite accurately.

12:4 a. m. "It is becoming more and more evident, Mr. Chairman, that we are really just getting started. It reminds me of the days when I was at McGill. We—" Here the piano-player struck up "Turkey in the Straw" and we began all over again.

You needed a compass and a megaphone to locate the chairman in the fog.

Everybody responded to the toast "to the ladies." Messrs. Day and McNay, called on to start the ball a-rolling claimed that they didn't have "experience."

Building Curious were discovered in the persons of Messrs. Ward and Forbes. They will not be allowed to hide their light under a bushel again.

The feast, like the American Republic, was "bounded" on the north by the aurora borealis; on the east by the procession of the equinoxes; on the south by the declaration of independence and on the west by the day of judgment.

Positively, there was no sign of a drought.

you have not heard the

Edison

Phonograph

at its best

Amberol Records open an entirely new field of music for Edison Phonograph owners. They offer music which by reason of its length cannot be secured on any other record. They offer not only a wider range of music, but a higher grade and a better rendition than has before been possible.

The tone of Amberol Records is matchless. They have a clearer, richer tone and more delicate interpretation than that of any other Edison Records, which means that they are superior to all other records.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph too. Edison Standard and Edison Amberol Records. Get complete catalogue from your dealer or from us.

Edison Phonographs, \$2.50 to \$10.00. Edison Standard Records, 40c. Edison Amberol Records (50c. each as stock list). Edison Grand Opera Records, 80c. to \$1.00.
